D.O.B: 02-08-2005

SUMMARY

I am pursuing a B.Tech in Artificial Intelligence and Data Science, with strong expertise in DevOps tools and technologies. I have a strong foundation in frontend development and database management systems. I have developed leadership and problem-solving skills through active participation in technical events and by leading college clubs. With a quick learning ability and a passion for leveraging modern technologies, I strive to deliver efficient, scalable, and user-friendly solutions, consistently excelling in projects and challenges.
